AMIT KUMAR

PYTHON FULL STACK DEVELOPER

+91-8409484637 | 725amit@gmail.com | Siwan, Bihar | LinkedIn: linkedin.com/in/amit-kumar-a357a61ab | GitHub: github.com/Amitkr84

PROFESSIONAL SUMMARY

Results-driven Python Full Stack Developer with practical expertise in designing scalable architectures, enterprise RESTful APIs, and responsive digital web applications. Proficient in Python, Django, Django REST Framework (DRF), PostgreSQL, and modern frontend frameworks like React.js and Next.js. Skilled in MVC/MVT design patterns, database query optimization, software testing, and deploying robust full-stack platforms on modern cloud infrastructure.

TECHNICAL SKILLS

Languages:	Python, JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL
Backend & APIs:	Django, Django REST Framework (DRF), FastAPI, Node.js, RESTful APIs, JWT Authentication
Frontend:	React.js, Next.js, Tailwind CSS, Bootstrap 5, AJAX, Context API, Responsive UI/UX Design
Databases & Cloud:	PostgreSQL, MySQL, SQLite, MongoDB, Redis Caching, Vercel, Docker Basics, CI/CD
Developer Tools:	Git, GitHub, VS Code, Postman, Vite, PowerShell, Render, Hostinger cPanel
Core Concepts:	OOP, MVC/MVT Architecture, Database Normalization, Software Testing, Zero-Trust Security

WORK EXPERIENCE

Wire Wings Pvt. Ltd. **Jan 2025 – Apr 2026**

Python Full Stack Developer Intern — Software Development & Testing Division **Lucknow, UP**

- Engineered and deployed scalable full-stack web applications utilizing Python, Django, DRF, and modern frontend stack.
- Designed and integrated secure RESTful APIs with JWT authentication, ensuring seamless client-server data synchronization.
- Optimized PostgreSQL database queries, Django ORM lookups, and indexing strategies, reducing query latency by 25%.
- Executed rigorous root-cause debugging, functional testing, and automated unit testing to maintain production stability.
- Collaborated in agile sprint cycles using Git/GitHub for continuous integration, code reviews, and feature delivery.

FEATURED PROJECTS

NEXORA – AI-Native Enterprise Software & Agency Platform **Live Demo** | **GitHub**

Technologies: Next.js (TypeScript), Python, Django REST APIs, Tailwind CSS, Vercel

- Architected a decoupled enterprise platform featuring a responsive frontend client and layered RESTful API architecture.
- Engineered backend API services with dedicated validation schemas, routes, controller logic, and role-based middleware.
- Developed multi-sector digital capabilities supporting FinTech, HealthTech (HIPAA workflows), E-Commerce, and Supply Chain.
- Built automated quote generation workflows, interactive service matrices, and zero-trust security integration deployed on Vercel.

Apnora Mart – Local Vendor E-Commerce Platform **Live Demo** | **GitHub**

Technologies: Python, Django, DRF, PostgreSQL, React.js, Bootstrap 5, JWT, REST APIs

- Developed a multi-vendor digital commerce marketplace connecting neighborhood merchants directly with retail consumers.
- Implemented secure user role management (RBAC), vendor management dashboards, interactive product catalogs, and cart logic.
- Engineered automated order processing workflows, transaction handling, and optimized database query execution.
- Integrated RESTful API endpoints for seamless catalog browsing, dynamic search filtering, and live order tracking.

EDUCATION

Babu Banarasi Das University (BBDU) **2024 – 2026**

Master of Computer Applications (MCA) **Lucknow, UP**

Maulana Mazharul Haque Arabic & Persian University **2020 – 2023**

Bachelor of Computer Application (BCA) **Patna, Bihar**

CERTIFICATIONS

- **Python Full Stack Development Certification:** Wire Wings Pvt. Ltd. (Issued April 2026)
- **Projects Delivered:** NEXORA Enterprise Platform & Apnora Mart Digital Commerce System
